Summary

Passionate Senior Software Engineer with over 18 years of extensive experience in designing, developing, and deploying scalable, high-performance software solutions. Specializing in modern web architectures and cloud-native environments, I possess deep expertise in React, TypeScript, and GraphQL, complemented by a strong backend foundation in Node.js, Python, and Java/Kotlin. As an AWS Certified Solutions Architect and Developer Associate, I excel at bridging the gap between complex technical requirements and impactful business solutions. My career is defined by a proven track record of leading cross-functional teams, mentoring engineers, and driving the entire Software Development Life Cycle (SDLC) to deliver user-centric products in highly regulated and technical sectors, including finance and clinical diagnostic instrumentation.

Work Experience

- Atlassian** Officer South, VIC, Australia
Senior Software Engineer September 2023 - Now
 - Leading front-end development for JIRA Work Suggestions, ensuring the delivery of scalable and user-friendly interfaces.
 - Optimizing UI performance and long-term maintainability by utilizing React, Relay, and GraphQL.
 - Driving the complete SDLC, including architecture solution design, development, automated testing, deployment, and operational feedback loops.
 - Collaborating with cross-functional teams to implement industry best practices for code quality and front-end architectural scalability.
- ANZ Bank** Officer South, VIC, Australia
Senior Software Consultant July 2021 - August 2023
 - Spearheaded front-end development for mission-critical credit process applications using React (Hooks, Redux, Formik).
 - Engineered complex data-driven interfaces and large-scale tables utilizing AgGrid and SCSS.
 - Developed and deployed high-performance front-end solutions that significantly improved user experience and application responsiveness.
 - Enhanced delivery velocity by contributing to and optimizing CI/CD pipelines for seamless component integration.
- Family Zone Cyber Safety** Officer South, VIC, Australia
Squad Lead & Senior Full Stack Developer September 2020 - May 2021
 - Led a dedicated engineering squad to deliver cyber safety web applications tailored for educators.
 - Focused on advanced React development and the implementation of peer-to-peer streaming technologies.
- Leica Biosystems** Officer South, VIC, Australia
Software Technical Lead April 2016 - September 2020
 - Directed the development of critical clinical software used to drive cancer diagnostic instrumentation.

- Designed the core software architecture that was successfully implemented across three separate engineering teams.
- Utilized a diverse technology stack including React, Vue, and Python to meet stringent medical software requirements.

- **Continental Automotive** Officer South, VIC, Australia
Senior Software Engineer *June 2010 - April 2016*
 - Developed sophisticated automotive software modules with a focus on high-performance embedded C++.
 - Engineered complex 2D graphics and sound subsystems for automotive applications across Melbourne and Singapore locations.
- **Canon Information Technologies** Officer South, VIC, Australia
Software Engineer *May 2008 - April 2010*
 - Developed high-fidelity transaction-level models of Canon ASICs.
 - Supported software driver development through accurate hardware modeling.

Education

- **University of the Philippines Diliman** Officer South, VIC, Australia
Bachelor of Science in Electronics and Communications Engineering *2003 - 2008*

Courses & Certifications

- **AWS Certified Solutions Architect – Associate** Amazon Web Services
N/A
- **AWS Certified Developer – Associate** Amazon Web Services
N/A

Technical Skills

React, TypeScript, GraphQL, Relay, Next.js, Redux, Formik, AgGrid, ECharts, CSS/SCSS, HTML5, Node.js, Python, Flask, Spring Boot, Java, Kotlin, PostgreSQL, MongoDB, AWS, GCP, Docker, CI/CD, TeamCity, Jenkins, Codefresh, Git, Bitbucket, JIRA, Confluence, PlantUML, DrawIO, Agile, Scrum, Solution Design, SDLC, Embedded C++, Vue.js
